Scooter

WELL DESIGNED WELL MADE SCOOTER :)

This is a wonderfully constructed scooter that has a roomy footboard so that you can carry your groceries in from the car or put a couple of gallons of milk or a 12 pack or pop or water bottles along with your feet there! This is invaluable to those who cannot walk and carry their groceries. This scooter also has a good range so that if you need to run to the store and it is only a few blocks or a couple of miles away to pick up a few things and your handicapped vehicle is in the shop you can do it with this one as the range for the batteries is enough and this scooter will get you there pretty quickly as it has adjustable speed. If you have an older model Golden you may want to review how the controls work for forward and backward so that you can order it "programmed" the way that you are used to operating it as re-learning this is pretty hard since if you have used one for a long time the way it works forward and back becomes quite a reflex and is hard to re-learn. As to the lady whose mother had all the trouble she should contact Golden for help in reprogramming the controls for the scooter and perhaps learn to use it as there is a speed control which should be on low for indoor use and also a "brake" that needs to be engaged when the scooter is being used. Those two issues along with the different controls sound like what was the problem with her mom and the scooter.

DESCRIPTION:

Have you always felt carrying groceries in or around the house a stressful task? If yes, then this power scooter is your go-to product. The three-wheeled adjustable speed power scooter is perfectly constructed for roomy footboard to carry things like groceries, milk cartons, water bottles. You no longer have to be worried about your laborious chores – especially if you have leg pain and cannot walk. This invaluable power scooter has a revolutionary design and comes with some exceptional features. You can even run to the grocery store on GC240 if it is located a few blocks away. It has adjustable speed and can go up to 4.5 mph of maximum speed. It can cover the range of 15 miles.

Offering you a great value, GC240 is your real companion as a portable scooter. It is ideal for not only carrying your groceries but for small trips as well. You can use it for dining out and mini park trips. The high-performance scooter comes with the ergonomic and easy-to-read control panel. You can conveniently steer it with its delta tiller.

Moreover, features like adjustable tail lights, LED lights, and tiller makes this power scooter standout. The foldable seat option is a precedence of comfort. With its slide seat function, you can adjust it according to your height. Whether you have a stout or slim body, GS240 comes with sufficient foot room to keep your feet strain-free. Plus, with 300 pounds weight capacity, this wonderful three-wheeler makes a perfect ride for heavyweight people. Thus, this stylish, convenient power bike with its tiller design is an ideal option to make your life hassle-free.

Exclusive Golden Accessories:

The Tube Cane Holder from Golden fits on the universal mounting bracket on the back of your scooter.

This oxygen tank holder fits C, D and E sized oxygen tanks and fits on the mounting bracket of your Golden scooter.

Rear Basket This roomy rear basket can fit on the universal mounting bracket located on the back of your Golden scooter.
