Pride Mobility Power Chairs:

The Pride Mobility Products Corp. is one of the leaders today, in power wheelchairs, scooters, and other mobility products. Their product lines evolved from an existing family business in 1986, Pride began focusing on manufacturing mobility power lift chairs. In 1992, Pride extended its product line to include scooters, with options and accessories. In the next 4 years, Pride entered the power wheelchair market with the release of their Jazzy with the exclusive mid-wheel drive. Pride has now entered the rehab market with their Quantum division.
